Summary

Full-stack Software Engineer with professional experience building production frontend applications with React and Next.js, and supporting backend services with Node.js, Express, and FastAPI. Comfortable working across the stack with PostgreSQL, Redis, Kafka, and Temporal, and has hands-on experience contributing backend work on a Retrieval-Augmented Generation (RAG) application. Strongest on the frontend, with growing full-stack range.

Technical Skills

Languages: TypeScript, JavaScript, Python, SQL, HTML5, CSS3
Frontend: React.js, Next.js, Tailwind CSS, Sass, Bootstrap, Responsive Web Design
Backend: Node.js, Express.js, FastAPI, REST APIs, GraphQL
Data & Messaging: PostgreSQL, Redis, Apache Kafka, Temporal, Grafana, Prometheus
Tools & Platforms: Git/GitHub, Vercel, AWS Amplify, Contentful CMS, Postman, Figma

Professional Experience

Emumba November 2024 – Present
Software Engineer II Islamabad, Pakistan

- Built and maintained production frontend applications using React and Next.js across multiple client projects
- Designed reusable, scalable UI components with a focus on performance, accessibility, and long-term maintainability
- Extended backend services using Node.js, Express, and FastAPI to support frontend feature requirements, including stepping in on backend development when a dedicated backend engineer was unavailable
- Contributed backend work (FastAPI, PostgreSQL) on a Retrieval-Augmented Generation (RAG) application for a client engagement
- Integrated and managed structured content using Contentful CMS, and implemented SEO best practices to improve application visibility and performance
- Deployed and maintained applications on Vercel and AWS Amplify
- Collaborated cross-functionally with designers, backend engineers, and product stakeholders to deliver features end-to-end
- Participated in code reviews, debugging, and performance optimization to maintain high delivery quality

Graphic Design, UI/UX & Video Production January 2021 – September 2024
Multiple Engagements — Multan Sultans, IdeaGist, National Idea Bank, TFC Marketing

- Created wireframes, interactive prototypes, and mockups in Figma; collaborated directly with developers to implement responsive, brand-aligned UI designs
- Led the UX-focused redesign of the Multan Sultans website during Pakistan Super League seasons 6–8, defining user flows to streamline the site's user journey
- Produced graphic design and video content for marketing, educational, and event campaigns across multiple organizations, managing a high volume of concurrent deliverables under deadline

Education

GIFT University, Gujranwala 2020 – 2024
Bachelor of Science, Computer Science

Achievements & Awards

- Presidential Award of Excellence (2024) – awarded by the President of Pakistan for contributions as a designer during NIB-III
